

Find the Path to Insight Through the Mountains of Data

Cellebrite Pathfinder is the industry-leading solution for helping law enforcement expedite investigations. Cellebrite Pathfinder uses AI to swiftly sift through all types of digital data, and automatically surface critical evidence and actionable insights from digital devices, so that your team can focus on solving the case.

Simplify:

- Organize complex data to give an intuitive overview across texts, images, emails, videos, documents, and apps.
- Unify digital fingerprints to identify persons of interest by correlating identifiers across apps and data sources.
- Enrich technical information into digestible insights, including from browsers, apps, cell towers, and wifi hotspots.
- Better understand conversations prior to and during the event with a holistic overview of communication across all apps.

Analyze:

- Easily review relevant data with automatic grouping of media into built-in and tailorable categories.
- Reveal important insights automatically surfaced from text analysis including names, places, websites, currencies, and languages.
- Uncover patterns in location data through maps of visited places, shared intersections, and irregular points of interest.

Collaborate:

- Streamline processes to allow smoother collaboration with internal teams and external stakeholders.
- Create comprehensive reports to present to teams, chain of command and partner agencies.
