# Intella®

Process | Search | Filter | Produce. Simple.

Find your evidence fast

Intella® is a powerful process, search and analysis tool that makes it easy to find critical data. With our unique Cluster Map technology relationships and timelines between custodians and ESI are instantly visualized, so you can quickly drill down through terabytes of data to find the most pertinent of evidence.

Key Features

- Designed to get the job done as quickly and simply as possible
- Highly user-friendly interface – focus on the job instead of learning software
- Market-leading indexing speeds for faster ESI processing
- Search and preview **email, attachments**, **documents, embedded images, archives, headers, cellphones and metadata**
- Load file support for all major legal export formats
- Task wizards to define and run common processing steps
- Index EnCase (E0/L0/EX0/LX0) and DD images. Support for Windows and MacOS file systems, GPT and MBR partitions, ISO and others.
- Multiple search visualization options including Intella's unique cluster map
- 24/7 support
- Exceptional value – fully featured software at a fraction of the cost of similar products

"Intella is a rock solid, extremely fast product that allows you to get the answers and generate the reports you need – even by non-technical staff – with minimal training."

Mitchell I – *Danfoss*

Customer Use Examples

Intella has helped some of the world's best known organizations to dramatically reduce the time, expense and personnel needed for each case.

- A major **Fortune 500 retailer** was able to bring e-discovery functions in-house and save millions of dollars in the process due to Intella's **easy-to-use functionality**.
- The compliance department of a global **financial institution** conducts internal reviews of employee emails and files with surprising ease because of Intella's **low resource/highly efficient architecture**.
- A major international **accounting and consulting firm** increased customer satisfaction by providing their legal clients with Intella Connect. Now clients can **review their cases through a web-browser** without configuring or installing any client software.
- Multiple detectives at a UK **law enforcement agency** can **simultaneously review evidence** on a single case with Intella Team, shortening the time spent on processing, searching and analyzing evidence.
- **e-Discovery consultants** worldwide have increased billings by offering clients outsourced e-discovery services **enabled by Intella Connect**.
