

TABLEAU IMAGING RESPONSE KIT TD2U

TABLEAU IMAGING RESPONSE KIT TD2U (IRK TD2U)

The Tableau Imaging Response Kit TD2u (IRK TD2u) is a portable kit that includes top of the line forensic hardware write blockers, adapters and cables from Tableau. The IRK TD2u is perfect for analyzing and acquiring forensic images of almost any hard drive or storage device type. With up to five connection options, this kit offers ultra-fast and convenient access to forensic data.

The IRK TD2u includes the extremely intuitive and long-standing TD2u Forensic Duplicator. Tableau's TD2u is the definition of "tried-and-true". Its small form factor, ease-of-use, and versatility as a duplicator, imager, and wiper makes it a favorite among experienced investigators. The IRK TD2u includes four Tableau write blockers to bring this kit to its fullest potential. Whether working in the field or in the lab, the Imaging Response Kit TD2u is a necessity in any forensic toolkit.
